Ok - you really didn't miss too much yesterday (and of course you have the slides) but hopefully you will be able to make the next call. Don did say they would try to send out the bug data prior to the call if they receive it in time, so you might be looking for it in June. I expect Eleanor to be highly engaged with the bug data as well -

I'm good to go with the TD. I just had an unexpected Dr.'s appointment so I couldn't make the call.

Looking forward to the bug data. Should be interesting.
